Topic: Handspring and Springboard

Twas the day after Christmas and all through the house,
every creature was stirring - even the mouse.

The children were restless because there was no school,
and Momma and Daddy were late for the car-pool.

The baby-sitter hadn't arrived - she was late least by a few hours,
and the parent they still haven't given the children their showers.

The sitter finally came as the children did play,
and explained that she was first in line, for the deals, this Boxing Day.

Football and Visor Platinum—What a Team!

Good morning. Here's a story to share with your readers on how versatile and useful the Visor Platinum proved to be recently for me and my buddies. We took a road trip back in September to watch our Oakland Raiders take on the Miami Dolphins in Miami. Not ones to plan too far ahead, we went down to Miami armed with only our tickets... and my Visor and Omnisky Minstrel Wireless Modem.

By teaming my Visor and modem, I was able to find us a list of hotels close to the stadium (and within our budget) using the go2.com PQA I loaded into my device. Once settled, we decided to search for some fun. If you know my friends, this meant us getting lost in downtown Miami. Never fear though, with my Visor and modem, along with an Omnisky link to MapQuest, we were able to plot the exact route back to our hotel. By this time we were getting hungry. Rather than hopping in the SUV and searching the streets for a restaurant, I once again used my Visor and modem to find something close that we could all agree on, plus directions to get there.

Come game time Sunday we were able to focus on face painting and getting ready for the game, because once again my Visor and modem took the guesswork out of getting to the stadium. Though the Raiders did not prevail that day despite our best efforts to will them to victory, the trip overall was fun and less stressful thanks to my Visor Platinum and it's versatility.

"Go Silver and Black.... and Platinum!"
