FATHER'S DAY AUCTION

to benefit the National Colorectal Cancer Research Alliance

to the NCCRA

Bid on the latest gear, gadgets and great stuff he's simply got to have while supporting the fight against colorectal cancer, one of the leading cancer killers of Americans today. Dad (or you) will be one of the first to own these cutting-edge products, straight from the pages of [Popular Science's](#) What's New section. All products have been generously donated by the manufacturers and have never been used. Proceeds will benefit the NCCRA founded by Katie Couric, Lilly Tartikoff and the Entertainment Industry Foundation.

SUPER SHOOTERS

Forget what you know about photo technology: 2002 changes everything. The first 6-megapixel consumer digitals are here, as is the first Foveon-sensor camera. New printers offer double the resolution. Here's the skinny on the new photography gear. [»](#)
